INDEX

ADOLPH, EDWARD F. The vapor tension relations of frogs, 112.
Adrenalin, effect on blood pressure, Squalus acanthias, 17.
Amoeba proteus, chemical needs, 205.
Anaërobiosis, effect on eggs and sperm of sea urchin, starfish, and Nereis, 46.
Ant, temperature effect on leg posture and speed of creeping, 306.
Arbacia punctulata, development of half and quarter eggs, and strongly centrifuged whole eggs, 155.
—— ——, physical and chemical constants of egg, 141.
AREY, LESLIE B. The formation and structure of the glochidial cyst, 212.
Ascidians of the Bermudas, 77.

BARD, PHILIP. *See* Lundstrom and Bard, 1.
BARNES, T. CUNLIFFE, and H. I. KOHN. The effect of temperature on the leg posture and speed of creeping in the ant, Lasius, 306.
BARRON, E. S. G. Studies on cell metabolism. I. The oxygen consumption of Nereis eggs before and after fertilization, 42.
——, ——. The effect of anaërobiosis on the eggs and sperm of sea urchin, starfish and Nereis and fertilization under anaërobic conditions, 46.
BENNITT, RUDOLF, and AMANDA DICKSON MERRICK. Migration of the proximal retinal pigment in the crayfish in relation to oxygen deficiency, 168.
BERRILL, N. J. Ascidians of the Bermudas, 77.
Blood, of skate, properties of, 23.
—— pressure, effect of adrenalin on, in Squalus acanthias, 17.
——, reducing substances in, of Limulus polyphemus, 37.

CABLE, RAYMOND M. *See* Stunkard and Cable, 328.
Centrifugation, effect on development of whole eggs of Arbacia punctulata, 155.
Chemical needs of Amoeba proteus, 205.
Chick embryo, fat metabolism under artificial incubation, 54.
COLMAN, JOHN. A statistical test of the species concept in Littorina, 223.
Conjugation, physiological effects, racial differences in, Paramecium aurelia, 258.
Crayfish, oxygen deficiency and migration of proximal retinal pigment, 168.
Creeping, temperature effect on speed, in ant, 306.
Culture and chemical needs of Amoeba proteus, 205.

DAILEY, M. E. *See* Fremont-Smith and Dailey, 37.
DILL, D. B., H. T. EDWARDS, and M. FLORKIN. Properties of the blood of the skate (Raia ocellata), 23.
Drosophila melanogaster, fertility of, effect of X-rays, 294.

ECHINARACHNIUS parma, locomotor organs, 195.
EDWARDS, H. T. *See* Dill, Edwards, and Florkin, 23.
Epibdella melleni Maccallum, life-history, 89.
Erythrocyte, permeability to water, effect of narcotics, 313.
——, question of permeability to hydrogen ions, 63.
——, rate of hemolysis in hypotonic solutions of non-electrolytes, 178.

FAT metabolism, chick embryo, under artificial incubation, 54.
FAURÉ-FREMIET, E. Strombidium Calkinsi, a new thigmotactic species, 201.
Fertility, effects of X-rays, in Drosophila melanogaster, 294.
Fertilization, under anaërobic conditions, in sea urchin, starfish and Nereis, 46.
FLORKIN, M. *See* Dill, Edwards, and Florkin, 23.

FREMONT-SMITH, F., and M. E. DAILEY. The nature of the reducing substances in the blood serum of Limulus polyphemus and in the serum, cerebrospinal fluid and aqueous humor of certain elasmobranchs, 37.
Frogs, vapor tension relations, 112.

GLOCHIDIAL cyst, formation and structure, 212.
Golgi and plastid zones compared, 126.

HAHNERT, WILLIAM F. Studies on the chemical needs of Amoeba proteus: a culture method, 205.
HARVEY, Ethel Browne. The development of half and quarter eggs of Arbacia punctulata and of strongly centrifuged whole eggs, 155.
HARVEY, E. NEWTON. Physical and chemical constants of the egg of the sea urchin, Arbacia punctulata, 141.
Hemolysis, rate of, by erythrocyte, in hypotonic solutions of non-electrolytes, 178.
Hydrogen ions, question of permeability of erythrocyte to, 63.
Hypophysial control of cutaneous pigmentation in elasmobranch fish, 1.

JACOBS, MERKEL H. Osmotic properties of the erythrocyte. III. The applicability of osmotic laws to the rate of hemolysis in hypotonic solutions of non-electrolytes, 178.
——, — —, and A. K. PARPART. Osmotic properties of the erythrocyte. IV. Is the permeability of the erythrocyte to water decreased by narcotics? 313.
——, — —, and A. K. PARPART. Is the erythrocyte permeable to hydrogen ions? 63.
JAHN, THEO. L., and L. R. KUHN. The life-history of Epibdella melleni Maccallum 1927, a monogenetic trematode parasitic on marine fishes, 89.

KOHN, H. I. *See* Barnes and Kohn, 306.
KUHN, L. R. *See* Jahn and Kuhn, 89.

LASIUS, temperature effect on leg posture and speed of creeping, 306.
Limulus polyphemus, blood of, reducing substances in, 37.
Littorina, species concept, statistical test, 223.
Locomotion, temperature effect on, in ant, 306.
——, organs of, in Echinarachnius parma, 195.
LUNDSTROM, H. M., and P. BARD. Hypophysial control of cutaneous pigmentation in an elasmobranch fish, 1.
LUTZ, B. R. *See* Wyman and Lutz, 17.
——, — —, and L. C. WYMAN. Reflex cardiac inhibition of branchiovascular origin in the elasmobranch Squalus acanthias, 10.
LYNCH, C. J. *See* Sonneborn and Lynch, 258.

MERRICK, AMANDA DICKSON. *See* Bennitt and Merrick, 168.
Metabolism, cell, of Nereis eggs before and after fertilization, 42.
MOORE, W. G. The effects of X-rays on fertility in Drosophila melanogaster treated at different stages in development, 294.
Mussels, fresh-water, glochidial cysts, formation and structure, 212.

NARCOTICS, and permeability of erythrocyte to water, 313.
Nereis eggs, oxygen consumption before and after fertilization, 42.
——, fertilization under anaërobic conditions, 46.

OSMOSIS, effect of narcotics on permeability of erythrocyte to water, 313.
——, permeability of erythrocyte to hydrogen ions, 63.
——, rate of hemolysis of erythrocyte in solutions of non-electrolytes, 178.
Oxygen consumption of Nereis eggs before and after fertilization, 42.
—— deficiency, and migration of proximal retinal pigment in crayfish, 168.

PARAMECIUM aurelia, inherited variation during vegetative reproduction, 244.
—— ——, racial differences in early physiological effects of conjugation in, 258.
Parasites, formation and structure of glochidial cyst, 212.

——, Epibdella melleni Maccallum 1927, life-history, 89.
PARKER, GEORGE H., and MARGARET VAN ALSTYNE. Locomotor organs of Echinarachnius parma, 195.
Parorchis avitus (Linton), life history, 328.
PARPART, A. K. *See* Jacobs and Parpart, 63.
Permeability, erythrocyte to hydrogen ions, 63.
——, erythrocyte to water, effect of narcotics on, 313.
Physical and chemical constants, egg of Arbacia punctulata, 141.
Pigmentation, cutaneous, in elasmobranch fish, hypophysial control of, 1.
Plastid and Golgi zones compared, 126.

RACIAL differences in early physiological effects of conjugation in Paramecium aurelia, 258.
RAFFEL, DANIEL. Inherited variation arising during vegetative reproduction in Paramecium aurelia, 244.
Raia ocellata, blood, properties of, 23.
Reducing substances, of blood, of Limulus polyphemus, 37.
Reflex cardiac inhibition of branchio-vascular origin in Squalus acanthias, 10.
Retina, oxygen deficiency and migration of proximal pigment, in crayfish, 168.
ROMANOFF, ALEXIS L. Fat metabolism of the chick embryo under standard conditions of artificial incubation, 54.

SEA urchin, effect of centrifuging on development of whole eggs, development of half and quarter eggs, 155.
—— ——, egg of, physical and chemical constants, 141.
—— ——, fertilization under anaërobic conditions, 46.
Skate, blood of, properties of, 23.
SONNEBORN, T. M., and C. J. LYNCH. Racial differences in the early physiological effects of conjugation in Paramecium aurelia, 258.
Species concept in Littorina, statistical test, 223.
Squalus acanthias, blood pressure, effect of adrenalin on, 17.
—— ——, reflex cardiac inhibition of branchio-vascular origin, 10.
Starfish, fertilization under anaërobic conditions, 46.
Strombidium Calkinsi, 201.
STUNKARD, H. W., and R. M. CABLE. The life history of Parorchis avitus (Linton), a trematode from the cloaca of the gull, 328.

TEMPERATURE, effect on leg posture and speed of creeping in ants, 306.
Trematode, Epibdella melleni Maccallum 1927, life-history, 89.

VAN ALSTYNE, M. *See* Parker and Van Alstyne, 195.
Variation, inherited, rise of, during vegetative reproduction in Paramecium aurelia, 244.

WEIER, T. ELLIOT. A comparison of the plastid with the Golgi zone, 126.
WYMAN, L. C. *See* Lutz and Wyman, 10.
——, — —, and B. R. LUTZ. The effect of adrenalin on the blood pressure of the elasmobranch, Squalus acanthias, 17.

X-RAYS, effect on fertility of Drosophila melanogaster, 294.
